# Bowdoin College

**B**OWDOIN COLLEGE was incorporated by the General Court of Massachusetts, upon the joint petition of the Association of Ministers and the Court of Sessions of Cumberland County. The act of incorporation was signed by Governor Samuel Adams, June 24, 1794. The legal designation of the Corporation is "The President and Trustees of Bowdoin College."

The College was named for the Hon. James Bowdoin, a distinguished Governor of Massachusetts, of Huguenot descent. The government has been, from the first, vested in two concurrent Boards, the Trustees and the Overseers, the Trustees initiating legislation and the Overseers concurring or vetoing. Since 1870 half the vacancies occurring in the Board of Overseers have been filled from nominations from the body of the Alumni.

The earliest patron of the College was the Hon. James Bowdoin, a son of the Governor. He gave land, money, and apparatus during his lifetime, and at his death made the College his residuary legatee. His library, collected during his residence in Europe as Minister to Spain and France, contained some 2,000 volumes and as many more pamphlets. It was rich in French literature and history and rare tracts on American history, and included almost everything in print on Mineralogy. His art collection, also bequeathed to the College, contained seventy paintings, originals and copies, and one hundred and forty-two drawings by old and modern masters; among the paintings were the portraits of Thomas Jefferson and James Madison by Gilbert Stuart.

Circumstances delayed the opening of the College until 1802, when Rev. Joseph McKeen, D.D., was elected its first president. Seven other presidents have since held office: Rev. Jesse Appleton, D.D., 1807-1819; Rev. William Allen, D.D., 1819-1829; Rev. Leonard Woods, D.D., LL.D., 1839-1866; Rev. Samuel Harris, D.D., LL.D., 1866-1871; Gen. Joshua Lawrence Chamberlain, LL.D., 1871-1883; Rev. William DeWitt Hyde, D.D., LL.D., 1885-1917; and Kenneth Charles Morton Sills, LL.D., 1918 to date.

More than thirteen thousand, seven hundred students have been admitted, and nine thousand, one hundred, and thirteen degrees have been awarded. The living graduates number four thousand, one hundred and twenty-nine.

Among the graduates have been Henry Wadsworth Longfellow, Nathaniel Hawthorne, Franklin Pierce, and Robert Edwin Peary.

## THE COLLEGE BUILDINGS

MASSACHUSETTS HALL, completed in 1802, was the first college building erected. Previous to 1936, when the entire building was remodeled, the two upper floors were used for the CLEVELAND CABINET of mineralogy, named in honor of Professor Parker Cleaveland. The whole building is now used for the administrative offices of the College. In 1942 through a gift of Frank H. Swan, LL.D., of the Class of 1898, the third floor was finished and furnished as a Faculty Room.

MAINE HALL (1808), WINTHROP HALL (1822), named in honor of Governor John Winthrop of the Massachusetts Bay Colony, APPLETON HALL (1843), named in honor of the second president of the College, WILLIAM DEWITT HYDE HALL (1917), named in honor of the seventh president of the College and erected from contributions from many of the Alumni, and AUGUSTUS E. MOORE HALL (1941), named in honor of his father by the donor, Hoyt Augustus Moore, LL.D., of the Class of 1895, are the five dormitories.

The CHAPEL, a Romanesque Church of undressed granite designed by Richard Upjohn, was built during the decade from 1845 to 1855 from funds received from the Bowdoin estate. It stands as a monument to President Leonard Woods, under whose personal direction it was erected. In the Chapel is the organ given in 1927 by Cyrus H. K. Curtis, LL.D.

SETH ADAMS HALL was erected in 1860-61. It was named in honor of Seth Adams, Esq., of Boston, who contributed liberally towards its construction. It stands on the Delta, and is used as a recitation building.

MEMORIAL HALL, erected in 1868, is a structure of local granite in the Gothic style. It is a memorial to the graduates and students of the College who served in the Civil War, and bronze tablets bearing their names are placed around the hall on the second floor. The lower story is used for recitations.

The OBSERVATORY was erected in 1890-91 with funds given by Mr. John J. Taylor, of Fairbury, Illinois. It stands on the southeast corner of Pickard Field, and is reached from Harpswell Road.

The WALKER ART BUILDING was designed by Messrs. McKim, Mead, and White and erected in 1892-94. It was given to the College by the Misses Walker, of Waltham, Mass., as a memorial to their uncle, Theophilus Wheeler Walker, of Boston, a cousin of President Woods.

The MARY FRANCES SEARLES SCIENCE BUILDING was designed by Henry Vaughan and erected in 1894. It is a gift of Mr. Edward F. Searles in memory of his wife. With the Walker Art Building it forms the western side of the Quadrangle.

HUBBARD HALL, the library building, was also designed by Henry Vaughan, and erected in 1902-03. It was presented to the College by General Thomas H. Hubbard, of the Class of 1857, and his wife, Sibyl Fahnestock Hubbard. It is built of brick and Indiana limestone and forms the southern end of the Quadrangle.

The HUBBARD GRANDSTAND was given to the College in 1904 by General Thomas H. Hubbard, of the Class of 1857. It is situated on Whittier Field.

SARGENT GYMNASIUM and GENERAL THOMAS WORCESTER HYDE ATHLETIC BUILDING were erected in 1912. The Gymnasium was built from contributions from many of the students and Alumni, and named in honor of Dudley A. Sargent, M.D., Sc.D., of the Class of 1875; the Athletic Building was given by John Hyde, of Bath, in memory of his father, a graduate of the College in the Class of 1861, whose name it bears. Connected with the Gymnasium is the SWIMMING POOL, given in 1927 by Cyrus H. K. Curtis, LL.D. These buildings stand to the east of the Chapel, outside the Quadrangle.

The DUDLEY COE MEMORIAL INFIRMARY is a three-story brick building erected in 1916-17. It was given by Dr. Thomas Upham Coe, of the Class of 1857, in memory of his son, and stands in the pines to the south of the Gymnasium and Athletic Building.

The MOULTON UNION, designed by McKim, Mead, and White, was erected in 1927-28. It was given by Augustus Freedom Moulton, LL.D., of the Class of 1873, as a social center for the student life of the College. It is two stories in height and stands just outside the Quadrangle, between Appleton and William DeWitt Hyde Halls.

The PICKARD FIELD HOUSE stands at the entrance of Pickard Field. It was given in 1937 by Frederick W. Pickard, LL.D., of the Class of 1894, and Mrs. Pickard.

## ADMISSION TO THE COLLEGE

Application for admission to the Freshman class should be addressed to the Director of Admissions. Testimonials of good moral character must be presented by all candidates before certificates of admission are granted. Letters from principals or teachers dealing in a personal manner with the character and attainments of the candidate are desirable. The College is particularly interested in any special ability which a candidate may have shown in his secondary school life.

### ADMISSION IN JANUARY, 1943

Because of the abnormal circumstances, students who have completed three and one-half years of work in secondary schools may be admitted to the College at the beginning of the second semester of the academic year 1942-1943 (January 25, 1943). It will be expected that an applicant for admission at that time shall have pursued a satisfactory school program and that a transcript of his school record shall present evidence of his ability to do college work. In considering an applicant's school record, success in English and in the minimum amount of mathematics normally required for admission shall be of especial importance.

The primary aim of the College in adopting this policy is to make it possible for candidates for admission to have at least one year of college training before they are called into the nation's service. Students who matriculate in January, 1943, and enroll both for the second semester and for the summer session will complete the equivalent of a normal freshman year. The usual freshman courses will be available in this period and it is expected that a selection from them will offer a satisfactory program for students admitted in January, 1943. The college is prepared to make any desirable modification,—in particular, to follow any recommendations from the armed services.

All accepted candidates will be charged an *admission fee* of ten dollars, which must be paid by July 15th, except that for candidates admitted after July 5th, the date will be within ten days of the time of their admission. Unless the fee is paid, no place in the entering class will be guaranteed. This fee will be credited on the first semester bill for all who matriculate in September; otherwise it is not returnable.

### SYSTEMS OF ADMISSION TO THE FRESHMAN CLASS

Candidates are admitted to Bowdoin College under the following systems of admission:\*

#### *Unit System:*

- (1) with credits by certificate,

---

\*The Committee on Admissions has power to modify the requirements for a limited number of candidates of exceptional ability or unusual promise.

- (2) with credits by examination,
- (3) with credits by both certificate and examination.

*Four-Examination System.*

UNIT SYSTEM WITH CREDITS BY CERTIFICATE

An admission unit represents a course satisfactorily pursued in a secondary school four or five hours per week for a school year. Under this system, candidates for admission must offer 15 units.

The content of courses in which candidates may obtain units either by certificate or examination for admission to Bowdoin College should conform closely to the requirements as set forth by the College Entrance Examination Board in the document referred to on page 58.

CANDIDATES FOR THE DEGREE of A.B. who have not studied Greek must present for admission 3 units in Latin, and are *strongly* recommended to present 4 units. If the fourth unit of Latin is not presented, a student is required to take, in College, either Latin A-B or both Greek 1-2 and 3, 4. Candidates for this degree are also recommended to present Ancient History to fulfill the requirement in history. Candidates desiring to present admission units in Greek should consult the Director of Admissions.

CANDIDATES FOR THE DEGREE of B.S. may satisfy the language requirements for admission by presenting 3 units of one language or 2 units in each of two different languages.

The following subjects, aggregating at least 9½ units, are required of all candidates:

English	.	.	.	.	.	.	.	.	3
Latin, Greek, French, German, or Spanish	3	(or	2	and	2)				
Algebra	.	.	.	.	.	.	1½	(or	2)
Plane Geometry	.	.	.	.	.	.	.	.	1
History (selected from the list below)	.	.	.	.	.	.	.	.	1

The study of *English* for four years in secondary school counts as only 3 units. *Algebra* counts as 2 units if pursued for two years, if reviewed in senior year, or if offered by examination.

Acceptable subjects, sufficient to bring the total up to 15 units, must be presented by all candidates. It is *strongly recommended* that these additional units be chosen from the following:

*Languages*

- Latin (2, 3, or 4)
- Greek (2 or 3)
- French (2, 3, or 4)
- German (2, 3, or 4)
- Spanish (2 or 3)

*History*

- Ancient History (½ or 1)
- Greek History (½)
- Roman History (½)
- Mediæval History (½ or 1)

Modern European History ( $\frac{1}{2}$   
or 1)  
English History ( $\frac{1}{2}$  or 1)  
American History ( $\frac{1}{2}$  or 1)  
Civics, with American History  
( $\frac{1}{2}$  or 1)

*Mathematics and Science*  
Plane Trigonometry ( $\frac{1}{2}$ )  
Solid Geometry ( $\frac{1}{2}$ )  
Advanced Algebra ( $\frac{1}{2}$ )  
Physics (1)  
Chemistry (1)  
Biology (1)

The Director of Admissions will consider applications for certified admission units in other cultural or scientific subjects.

For credit toward the 15 units, required for admission under this system, certificates will be received from preparatory schools in New England which have been approved by the New England College Admissions Board. This Board, composed of delegates from the associated colleges, receives, examines, and acts upon all applications of schools in New England which ask for the privilege of certification. All certificates are passed upon by the College, but students from schools in New England are received on certificate from such schools only as have been approved by this Board. All schools desiring certification privilege should apply before *April 1st of each year* to the Secretary of the Board, Dean William L. Machmer, Massachusetts State College, Amherst, Mass.

The College has established a list of schools outside of New England to which it accords the certificate privilege. Admission to this list may be obtained on presentation of evidence of qualification.

Principals may obtain certificate forms for admission units upon application to the Director of Admissions.

### UNIT SYSTEM WITH CREDITS BY EXAMINATION

The units, as described in the last section, may also be obtained by examination. Bowdoin College offers its own examinations, and accepts the examinations of the College Entrance Examination Board and those of the New York Board of Regents. Regular examinations for admission will be held at the College on May 17, 18, and 19, 1943. The examinations are to be conducted on the following schedule:

Monday, May 17th  
9-12 A.M. Latin  
2-6 P.M. History

Tuesday, May 18th  
9-12 A.M. English  
2-5 P.M. French  
7-10 P.M. German, Greek, Spanish

Wednesday, May 19th  
9 A.M.-1 P.M. Mathematics  
2-6 P.M. Chemistry, Physics, Biology

Two hours will be allowed for each examination in history, science, or single subjects in mathematics. Three hours will be allowed for the

comprehensive examination in mathematics under the four-examination system.

Entrance examinations may be divided between two or more successive years if the candidate prefers. A certificate will be given for the subjects passed at each examination period. This certificate is sent to the candidates within two weeks after Commencement.

Examination papers will also be furnished to the principal of any high school or academy in Maine of good standing, having a regular college preparatory course of not less than four years in length.

The following regulations must be observed when entrance examinations are held elsewhere than in Brunswick. Papers are sent only in May. The dates for holding the examinations in 1943 are May 17, 18, 19, and the schedule printed above must be followed. Applications for papers, addressed to the Director of Admissions, must be received not later than May 10th, stating the name of the school, the names of the candidates, and the subjects in which these candidates are to be examined. Examination papers together with the requisite number of blue books will be sent prepaid to the principal. On the completion of the examination, the books are to be returned at once at the expense of the College.

*The September examinations for admission are held only at the College, and credits gained as the results of these examinations will not be accepted until the following year if the Freshman class is already filled. Candidates for these examinations must make application to the Director of Admissions before September 10th. These examinations will be held, in 1943, according to the following schedule:*

Monday, September 20th

9-12 A.M. English

2-6 P.M. History

7-10 P.M. German, Greek, Spanish

Tuesday, September 21st

2-5 P.M. French

7-10 P.M. Latin

Wednesday, September 22nd

9 A.M.-1 P.M. Mathematics

2-6 P.M. Chemistry, Physics, Biology

Two hours will be allowed for each examination in history, science, or single subjects in mathematics. Three hours will be allowed for the comprehensive examination in mathematics under the four-examination system.

The certificates issued as a result of the examinations which are held by the College Entrance Examination Board, April 10, June 4-5, and September 8-9, 1943, will be accepted by the College in so far as they meet the requirements for admission. A list of places at which these examinations will be held will be published about March 1, 1943. All candidates wishing to take these examinations should make early appli-

cation by mail to the Secretary of the College Entrance Examination Board, P.O. Box 592, Princeton, N. J. Blank forms for this purpose will be mailed by the Secretary of the Board to any teacher or candidate upon request.

### UNIT SYSTEM WITH CREDITS BY CERTIFICATE AND EXAMINATION

Candidates for admission may obtain some of their units by certificate and the remainder by examination, in accordance with the regulations above stated.

### FOUR-EXAMINATION SYSTEM

Under this system of admission, a candidate is required to present a record of his school work showing the subjects studied, the time devoted to each subject, and the quality of work done in each. This record, to be approved, must show that the work done in secondary schools has covered four years, that it has been devoted mainly to English, foreign languages, mathematics, and history, that none of these has been omitted, and that two of the subjects offered for examination have been pursued beyond their elements. Science is not required for admission, but an examination in Chemistry, Physics, or Biology may be offered. The candidate's school record must be sent to the Director of Admissions before April 20th. If it is approved by the College the candidate will then submit four subjects, satisfying the regulations in the next paragraph, in each of which he will be given an examination adapted to show the range and quality of his attainment. These four examinations must all be taken in the same year, and at the regular spring examination period of the College. The various equivalent examinations of the College Entrance Examination Board will be equally acceptable.

Examinations will be offered in English, Latin, Greek, French, German, Spanish, History, Mathematics, and Science (i.e., Chemistry, Physics, or Biology). Under this system a comprehensive examination in English is required of every candidate, an examination in Latin of each candidate for the degree of A.B., and a comprehensive examination in Mathematics of each candidate for the degree of B.S. No examination will be set in a foreign language which has been studied less than two years. If a candidate shall have studied in his senior school year third or fourth year Latin, or Greek, French, German, or Spanish, he will take the examination covering the work of his final year only. If a candidate in Mathematics shall have studied in his senior school year a course in Advanced Mathematics—namely, Solid Geometry, Plane Trigonometry, and Advanced Algebra, or any two of these—he will

take an examination in these subjects; otherwise he will take a comprehensive examination covering both Elementary Algebra and Plane Geometry.

Both the school record and the results of the examinations considered as a whole will determine the acceptance or rejection of the candidate. Permission for candidacy under this plan is valid only for the specified examination period. A candidate rejected under this plan will receive due credit for such examinations as he may pass under this plan toward the 15 units required under the *Unit System*.

## ADVANCED STANDING

Candidates for admission to the Sophomore, Junior, and Senior classes are admitted only upon vote of the Faculty after the receipt of proper evidence of their qualifications to pursue the studies of the classes to which they seek entrance. A student from another college, before he can be admitted, must present a certificate of honorable dismissal. At least one full year of residence is required for a degree. Application for admission to advanced standing should be addressed to the Director of Admissions.

## SPECIAL STUDENTS

Persons who give evidence of maturity, earnestness of purpose, and adequate preparation will be allowed to pursue special studies in connection with the regular classes, without becoming candidates for a degree; but no student shall continue in such special standing for more than two years. Special students wishing to become candidates for a degree must satisfy all the regular requirements for admission to the Freshman class. During his first year in residence no student in special standing is allowed to participate in intercollegiate athletics.

Applications for admission as special students should be addressed to the Director of Admissions.

## CURRICULAR REQUIREMENTS

### REQUIRED COURSES

Acceptable English is required in both oral and written work, not only in English courses but in all courses. Any student whose work is unsatisfactory in the mechanical or rudimentary aspects of grammar, diction, and syntax, or in the broader aspects of clear expression, may be reported to the Committee on Remedial English; he then, along with those Sophomores whose work in English 1-2 was below standard, may be required to take a special corrective course, given during both semesters of the college year. Until he has satisfied the Committee, no student assigned to the course in Remedial English will be recommended for a degree.

All students are required to take certain courses in Physical Education.

FRESHMAN YEAR. All candidates for a degree are required to take:

*(In the present emergency, these requirements for Freshman year may be modified.)*

## BOWDOIN-MASSACHUSETTS INSTITUTE OF TECHNOLOGY DEGREES

Students desiring to enter the engineering profession may qualify for the degree of Bachelor of Science from both Bowdoin College and the Massachusetts Institute of Technology by successfully completing three years at Bowdoin, or two years and two summer sessions, followed by two years at the Institute. The Bowdoin degree will be awarded to such students on notification from the Institute that they have received their degree from the Institute, provided that during their residence at Bowdoin they had satisfied the regular group and language requirements. To be recommended to the Institute under this plan, students must have attained honor grades in their courses in Mathematics and the Natural Sciences. Students wishing to avail themselves of this plan should notify the Dean of Bowdoin College at the beginning of their Freshman year, as it requires a very definite choice of courses, including, specifically, Mathematics and Physics in all three years, and Chemistry in Sophomore and probably Junior years, depending upon the course contemplated at the Institute.

## INSTITUTES

The regular instruction of the College is supplemented every two years by Institutes in various subjects. Institutes have been held in Modern History, Modern Literature, the Fine Arts, the Social Sciences, the Natural Sciences, Human Geography, Politics, Philosophy, and Music. (The Institute for 1943 has been postponed.)

The method of conducting these Institutes is to bring to Brunswick ten or more lecturers, each an authority in his field, and each of whom gives a public lecture, and conducts a round-table conference solely for students. Thus, each student during his college course has an opportunity not only to hear at least twenty people from beyond the college faculty, but to participate in round-table conferences with those in whose subjects he is most interested.

## LECTURESHIPS

## ANNIE TALBOT COLE LECTURESHIP

This lectureship was founded in 1906 by Mrs. Calista S. Mayhew, of South Orange, N. J., in memory of her niece, Mrs. Samuel Valentine Cole, with a gift of \$4,750. According to the provision of the donor, this lectureship is to "aim at contributing to the ennoblement and enrichment of life by standing for the idea that life is a glad opportunity. It shall, therefore, exhibit and endeavor to make attractive, the highest ideals of character and conduct, and also, in so far as possible, foster an appreciation of the beautiful as revealed through nature, poetry, music, and the fine arts."

BENJAMIN APTHORP GOULD FULLER  
MEMORIAL FUND

This fund of \$3,821 was founded in 1911 in memory of Benjamin Apthorp Gould Fuller, A.M., of the Class of 1839, and provides for instruction in Social Hygiene in its broadest aspect.

## MAYHEW LECTURESHIP

This lectureship was founded in 1923 by Mrs. Calista S. Mayhew. The income from the bequest of \$5,000 is used "to provide lectures on bird life and its effect on forestry."

## TALLMAN LECTURE FUND

This fund of \$100,000 was given by Frank G. Tallman, A.M., of Wilmington, Delaware, in 1928, as a memorial to the Bowdoin members of his family. The income is "to be expended annually upon a series of lectures to be delivered by men selected by the Faculty either in this country or abroad."

## JOHN WARREN ACHORN LECTURESHIP

This lectureship was established in 1928 by Mrs. John Warren Achorn, as a memorial to her husband, a member of the Class of 1879. The income from the fund of \$2,500 is used for lectures on birds or bird life.

# ADMINISTRATION OF THE COLLEGE

## TERMS AND VACATIONS

The College holds three sessions each year, beginning in September, January, and June. Commencement exercises are held at the close of each session. There are brief periods of vacation, as indicated in the College Calendar on page 7.

## REGISTRATION AND ENROLLMENT

All students are required to register on the first day of each session, except that Freshmen on entering college are required to register on the morning preceding the opening of the session.

Students must enroll in courses previous to the opening of each session, in accordance with the regulations posted at the College.

## COLLEGE BILLS

At the opening of each session, a term bill will be rendered for one hundred and fifty dollars for tuition, the charge for room rent, fees and taxes, and for other charges due from every student. At least one-half of the term bill must be paid at the time of registration, and the balance shall be payable in sixty days after the date of the bill. Bills for other charges may be rendered at any time and shall be payable immediately.

Any student whose term bill is not paid when due may be excluded by the Faculty from the privileges of the College and from credit for college work. No student shall be admitted to examinations of a session if any college charges against him remain unpaid, except in special cases by permission of the Faculty.

No student shall be advanced in class standing until all bills of the previous year have been paid, and no degree shall be conferred upon a student who has not paid all his dues to the College, including charges, if any be due, for room and board at a fraternity house.

No student shall be dismissed from college on request unless he shall have paid all his college bills, including that of the current session.

During the time that term bills which are overdue remain unpaid, a student receives no credit for college work.

## EXPENSES

**TUITION.**—The tuition fee is \$300 for an academic year of two semesters. Any student completing the number of courses required for a degree in less than four years will be required to pay full tuition for four years. The tuition for the summer session is \$150.

**OTHER COLLEGE CHARGES.**—All damage done to the buildings or other property of the College by persons unknown, may be assessed equally on all the undergraduates. A diploma fee of \$5 is charged to

each student at graduation. The College also collects an annual fee of \$3 or \$4 for a locker and the use of towels in the gymnasium; a fee of \$3.50 each semester for the privileges of the Union; and a fee of \$12.50 each semester, to support the various student activities. Fees applying to the summer session may be found in the Summer Session Catalogue.

ROOMS.—Rooms in the college dormitories may be rented at prices varying from \$252 to \$320 for an academic year of two semesters, including electricity, heat, and care. Room rent for the summer session is one-quarter of the normal annual charge for the same room. The price may be halved if the room is shared with another student, as is usually done. All rooms are furnished. Freshmen are required to room in the college dormitories, unless other arrangements are made with the Dean. The dormitories are closed during the Christmas and spring vacations. Applications for rooms should be made to the Assistant to Bursar.

BOARD.—Board at the cafeteria in the Moulton Union, which accommodates about a hundred students, and at the fraternity houses costs about \$8.50 a week.

A leaflet containing estimates on all necessary college expenses, as well as on scholarship aid and self-help, will be sent gratis on application to the Director of Admissions.

## LABORATORY FEES

The fees for laboratory courses are as follows:

Chemistry 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, \$3.75 each. If two courses are taken at the same time, neither of which is Chemistry 7 or 8, the fee for the two is \$5.50. There is also a small charge for non-returnable articles used, and for breakage.

Zoölogy 3, 4, 5, 6, \$3 each; Zoölogy 12, \$5.

## EXAMINATIONS

The regular examinations of the College are held at the close of each session.

An unexcused absence from an examination entails a mark of zero. In case of illness or other unavoidable cause of absence from examination, the Dean has power to suspend the action of this rule.

## RANK

The rank of a student in each course is computed on a scale of 10, but is preserved on the college records in the letters A, B, C, D, and E. A signifies a rank from 9 to 10; B, a rank from 8 to 9; C, a rank from 7 to 8; D, a rank from 6 to 7; E, a rank lower than 6, and a condition.

## REPORTS OF STANDING

A report of the ranks of each student is sent to his parents or guardian at the close of each session. The report contains a statement of the standing of the student in each of his courses, together with the number of unexcused absences from chapel.

## REQUIREMENTS FOR DEGREES

In order to be recommended for the degree of Bachelor of Arts or Bachelor of Science, a candidate must have been at least one year in residence at Bowdoin College and have complied with the regulations in regard to courses. He must, moreover, have attained a grade of C, or higher, in at least half his courses.

## DEGREES WITH DISTINCTION

The Degree of Bachelor of Arts or Bachelor of Science with distinction is awarded in three grades:

*Cum Laude.* A candidate is recommended for a degree *cum laude* who has obtained an average grade of B in all courses presented for a degree.

*Magna cum Laude.* A candidate is recommended for a degree *magna cum laude* who has obtained a grade of A in three-fourths, and B in another eighth, of his courses.

*Summa cum Laude.* A candidate is recommended for a degree *summa cum laude* who has obtained a grade of A in seven-eighths of his courses. A candidate for a degree *summa cum laude* must have been in residence at Bowdoin College at least three years.

## HONORS IN MAJOR SUBJECTS

A department may recommend to the Faculty, candidates for honors in that department, but no student shall be so recommended unless he shall have received at least A's in one-half and B's in the other half of the six courses comprising his major subject. To such students the Faculty may, on recommendation from the department, grant "honors." A department may recommend to the Faculty as candidates for "high honors" or "highest honors" students who have at least met the course requirements as above described and have completed additional work—problems, theses, examinations—demonstrating their originality and initiative.

## PHI BETA KAPPA

The Phi Beta Kappa Society, national honorary fraternity for the recognition and promotion of scholarship, was founded at the College

of William and Mary in 1776. The Bowdoin Chapter (Alpha of Maine), the sixth in order of establishment, was founded in 1825. In addition to the nine charter members, one thousand, four hundred and twenty-one men have been elected to membership, of whom five hundred and fifty-eight are living.

Election to the society is on the basis of scholarly achievement, in estimating which, consideration is given primarily to grades in courses, secondarily (at graduation) to departmental honors. Not more than fifteen members may be chosen from any one class. For the period of the war, elections may be held three times a year—in January, May, and September. Candidates must have completed twenty-seven semester units for college credit.

The officers of the Chapter for 1942-1943 are:

*President*, Philip Greely Clifford, 1903,

*Vice-President*, William Campbell Root, California, 1925,

*Secretary-Treasurer*, Stanley Perkins Chase, 1905,

*Literary Committee*, Albert Walter Tolman, 1888, Frederick Howard Dole, 1897, Scott Clement Ward Simpson, 1903, Leland Matthew Goodrich, 1920, Lawrence Brock Leighton, 1925.

## JAMES BOWDOIN DAY

James Bowdoin Day, named in honor of the earliest patron of the College, was instituted in 1941, to accord recognition to those undergraduates who distinguish themselves in scholarship. Exercises, at which the principal features are the awarding of James Bowdoin Scholarships, the presentation of books, bearing the bookplate of the Honorable James Bowdoin, to every undergraduate who has maintained the grade of "A" in all courses throughout an academic year (or the equivalent under the accelerated schedule)—only one such award, however, being made to any one student in his college course—and an address by some distinguished man.

The James Bowdoin Scholarships, carrying no stipend, are awarded to members of the three upper classes who have maintained a high average in their courses to date and to certain other seniors who have done superior work in their major departments.

## RELIGIOUS EXERCISES

Services are held each week-day at 11.10 A.M. in the College Chapel, and vesper services are held on Sundays at 5 o'clock. All students, unless excused by authority of the Dean, are required to be present. From time to time during the year prominent clergymen of various denominations come to Brunswick to preach at the College.

## THE CHRISTIAN ASSOCIATION

The Christian Association is an undenominational student organization, membership in which is open to every undergraduate. It stands definitely for a life governed by the principles of Christ, as interpreted to meet the needs of college students. The Association conducts many lines of work. Occasional meetings are addressed by prominent business and professional men. The College preachers often meet the undergraduates informally on the Sunday evenings of their visits.

## BOARD OF PROCTORS

The maintenance of order in the dormitories and the responsibility for their proper care are vested in a Board of Proctors.

The members for the year 1942-1943 are:

*The Dean, Chairman*

George Elliot Altman	Frederick Haskell Bubier
William Arthur Beckler, Jr.	Robert Laughlin Edwards
Roger Weare Bragdon	William Henry Elliot
George Elias Brickates	Alan Leslie Gammon
George Wilcox Hutchings	

## STUDENT COUNCIL

The Student Council is composed of ten members from the Senior class and two from the Junior class, elected annually by the undergraduates. In matters pertaining to student affairs, it makes recommendations to the student body, and occasionally to the Faculty. The members for the year 1942-1943 are:

*James Dennis Dolan, Jr., President*

*George Wilcox Hutchings, Vice-President*

George Elliott Altman	William Kirk Simonton
William Arthur Beckler, Jr.	John Alexander Wentworth, Jr.
William Bradford Briggs	Carleton Clark Young, Jr.
Robert Laughlin Edwards	William Henry Elliot
Robert Warren Morse	Richard Carlton Johnstone

## SOCIAL LIFE

### FRATERNITIES

The students of the College have divided themselves into groups for the purposes of social and personal relations. Eleven chapters of the national Greek-letter societies occupy their own fraternity houses, which provide comfortable homes for their members. A generous program of

inter-fraternity athletic and social events enables the members of each group to widen their circle of acquaintances, and prevents the student body from breaking up into a number of separate entities. The affairs of each house are administered by student officers with the coöperation of an alumni committee and an adviser from the Faculty.

### THE MOULTON UNION

The Moulton Union is the center for the social life of the entire college, and provides for the non-fraternity men a club which rivals the most comfortable of the chapter houses. Its admirable facilities serve to make it a home on the campus for all undergraduates and their parents, faculty members, alumni, and friends of the College. Many of the undergraduate extra-curricular activities are appropriately and conveniently housed in this building, which is well adapted to provide a place for their varied programs. The Union includes cafeteria and dining room service for students, members of the Faculty, and friends of the College. Comfortable sleeping rooms are also available at moderate rates for men and women visitors. Alumni, parents, and friends of members of the College, and other visitors are among those who use these rooms.

A committee composed of five members of the Faculty and twelve undergraduates assists the Manager of the Union in an advisory capacity. The members for the year 1942-1943 are:

Professor Arthur Chew Gilligan, *Chairman*; Associate Professor Ernst Christian Helmreich, Assistant Professor Eaton Leith, and Mr. Donovan Dean Lancaster, Manager, from the Faculty; George Elliot Altman, Marshall Wooley Picken, Jr., Caleb Kendall Wheeler, from the Class of 1943; Robert Walter Brown, Irving Budd Callman, Robert Edwin Dyingier, Alfred Preston Lee, William Arthur McLellan, Alexander Cincldre Montgomery, Lacey Baldwin Smith, from the Class of 1944; Clarence Stetson Mick, John Randolph Sides, from the Class of 1945.

### MEDICAL ATTENDANCE

If ill, students should immediately call upon, or summon, the college physician, whose office is in the Infirmary.

THE DUDLEY COE MEMORIAL INFIRMARY, completed in 1917, and endowed by the donor with a sum ample for all running expenses, including that of resident attendants, is a gift of Dr. Thomas Upham Coe, of the Class of 1857, in memory of his son. It is fifty-eight feet in length and thirty-eight feet in width, and has three stories and a basement. It is entirely fireproof.

The basement contains a dining room, kitchen, laundry, furnace room, and janitor's room.

The first floor contains the reception hall, physician's office, operating room, sterilizing room, nurse-matron's rooms, two wards of two beds each, and bath rooms.

The second floor is designed especially for the care of contagious diseases and contains two hospital units: each unit, comprising two wards of two beds each, duty room, diet kitchen, and bath room. These units are so arranged that they can be isolated. There are also a physician's room and a sterilizing room on this floor.

The third floor contains rooms for the nurses connected with the infectious wards, rooms for maids, a solarium, and a storeroom.

Students who are admitted to the Dudley Coe Memorial Infirmary on recommendation of the College Physician, are cared for without fee.

A fund of \$1,000 given by Mr. and Mrs. George F. Godfrey, of Bangor, in memory of their son, Henry Prentiss Godfrey, is devoted to providing medical attendance for students who may be sick while in college.

## FINANCIAL AID SCHOLARSHIPS

More than \$30,000 is distributed annually in the form of scholarships to aid meritorious students of slender means. Awards are made three times a year, near the beginning of each session. Scholarships are not college honors and should be sought only by students who would have difficulty in meeting the expenses of their college education unless so aided. While scholarships are awarded primarily on the basis of need, a student, to continue to receive such aid, must maintain an average rank of C, or higher, in at least half of his courses, this being the minimum requirement for graduation. Scholarships, except the Scholarships for Incoming Freshmen, are not promised or awarded by the College previous to admission.

Applications for scholarships must be made upon blank forms furnished by the Director of Student Aid, and must be deposited in his office in the Moulton Union.

### TERMS OF FOUNDATION AND AWARD

The terms of foundation and rules for awarding the foregoing scholarships may be found in the Annual Catalogue of Bowdoin College for 1941-1942.

### SCHOLARSHIPS FOR INCOMING FRESHMEN

Requests for information about any of these scholarships should be addressed to the Director of Admissions. Application blanks are provided for candidates for the State of Maine Scholarships and the Bowdoin Scholarships. Awards from the Alumni Fund and the John Johnston Fund are made by the committees in charge, recipients being selected from the best qualified candidates in need of such aid.

### STATE OF MAINE SCHOLARSHIPS

To encourage students in the secondary schools of Maine to seek a college education, the College offers four competitive scholarships of

\$500 each. For the distribution of these awards, the State is divided into four districts and usually an award is made to a candidate from each district. Candidates for these scholarships must be residents of Maine and also must attend school in the State. Special examinations in English, in either Latin or Mathematics, and in general information are set by the College for this competition.

### BOWDOIN SCHOLARSHIPS

The College offers to candidates for admission who reside outside the State of Maine five scholarships of \$425 each, providing for tuition and room rent for Freshman year. Candidates for these scholarships are selected on a fourfold basis comprising scholastic attainment as shown by the school record, performance on a scholastic aptitude test, qualities of leadership as shown by extra-curricular activities both in and outside school, and character and promise for future success as established by recommendations from school authorities and others.

### ALUMNI FUND SCHOLARSHIPS

A certain part of the receipts of the Alumni Fund is set aside annually to provide scholarships for incoming Freshmen. The number and size of these scholarships and the selection of recipients is in the hands of a committee of which the Dean of the College, the Director of Admissions, and the Chairman of the Alumni Fund are members.

### JOHN JOHNSTON SCHOLARSHIPS

The John Johnston Fund was established to provide scholarship aid to some able and worthy candidate, preferably from rural Maine, for whom a college education would be quite impossible without very considerable financial assistance. Awards from this fund are made by a committee composed of members of the Governing Boards of the College, and the Director of Admissions.

### LOAN FUNDS

The following Loan Funds were established to assist students in unexpected circumstances to continue their college courses. Applications for loans should be addressed to the President.

**PRESIDENT'S LOAN FUND.** A sum now amounting to \$7,862 received from various sources.

**ALBION HOWE MEMORIAL LOAN FUND.** A fund now amounting to \$2,300 established by Lucien Howe, M.D., Sc.D., of the Class of 1870, of Buffalo, N. Y., in memory of his brother, Albion Howe, of the Class of 1861. (1903)

GEORGE P. DAVENPORT LOAN AND TRUST FUND. A fund now amounting to \$9,747 established by George P. Davenport, A.M., of the Class of 1867, of Bath, Maine. (1908)

EDWARD P. HUTCHINSON LOAN FUND. A fund of \$211 given by Edward P. Hutchinson, of the Class of 1927, to be administered by the Dean. (1939)

THE ANONYMOUS LOAN FUND. The sum of \$1,031 administered by the Dean. (1941)

## MEDICAL SCHOLARSHIPS

GARCELON AND MERRITT FUND. About \$7,500 from the income of this fund, established in memory of Seward Garcelon, of the Medical Class of 1830, and Samuel Merritt, of the Medical Class of 1843, is appropriated annually for medical scholarships. The larger part of this amount is awarded to students pursuing their studies in medical schools, and the remainder may be assigned to students in the College who are taking pre-medical courses; but, in the discretion of the Trustees, all of the income available may be assigned to students in medical schools.

Applications for medical scholarships must be made upon blank forms furnished by the President of the College, and must be received by the President before December 1st.

## GRADUATE SCHOLARSHIPS

CHARLES CARROLL EVERETT SCHOLARSHIP. Certain real estate in Brunswick, converted into a fund amounting to \$13,993, bequeathed by Miss Mildred Everett, to found a scholarship in memory of her father, Charles Carroll Everett, D.D., of the Class of 1850, the net income of which is given to that member of the graduating class of Bowdoin College whom the President and Trustees shall deem the best qualified to take a post-graduate course in either this or some other country. (1903)

HENRY W. LONGFELLOW GRADUATE SCHOLARSHIP. A fund of \$10,057 given by the daughters of Henry W. Longfellow, of the Class of 1825—Miss Alice M. Longfellow, Mrs. Edith L. Dana, and Mrs. Anne L. Thorpe—for a graduate scholarship "that would enable a student, after graduation, to pursue graduate work in some other college, or abroad if considered desirable; the work to be done in English, or general literature, and the field to be as large as possible—Belles Lettres in a wide sense. The student to be selected should be one not merely proficient in some specialty, or with high marks, but with real ability in the subject and capable of profiting by the advanced work, and of developing in the best way." (1907)

**GALEN C. MOSES GRADUATE SCHOLARSHIP.** A fund of \$5,000 bequeathed by Emma H. ## PHYSICAL EDUCATION

The Sargent Gymnasium has a frontage of 80 feet and a depth of 140 feet. On the first floor are the lockers, dressing rooms, managers' and instructors' rooms, and rooms for boxing, fencing, and hand-ball. On the second floor are the main exercising room, 112 feet by 76 feet, a trophy room, and offices.

The General Thomas Worcester Hyde Athletic Building is connected with the gymnasium. It has an earth floor 160 feet by 120 feet, and a one-twelfth mile running track ten feet wide. In this building are set off spaces 120 feet by 40 feet for track athletics and 120 feet by 120 feet for a full-sized baseball diamond with space to over-run the bases by nearly fifteen feet.

The Swimming Pool is also connected with the gymnasium. The building is 130 feet by 60 feet, and the pool itself is 75 feet by 30 feet.

The Whittier Athletic Field is a short distance from the gymnasium, and is reached by a straight path through the pine grove. This field, named in honor of Dr. Frank Nathaniel Whittier, of the Class of 1885, long the director of the gymnasium, who was largely instrumental in the acquisition and preparation of it for athletic purposes, is about five acres in extent, and is well adapted in all respects for football and track athletics.

The Hubbard Grandstand is situated on Whittier Field, and contains, besides seats for eight hundred spectators, training rooms for the athletes, showers, dressing rooms, and quarters for the visiting teams.

Pickard Field is just to the south of Longfellow Avenue. It was given by Frederick William Pickard, LL.D., of the Class of 1894, and named in honor of his family. Here, on a tract of sixty-six acres, are facilities for baseball, tennis, and football.

The Pickard Field House is situated at the entrance of this field, and contains lockers, showers, and a lounge. It is the gift of Mr. and Mrs. Pickard.

## KENT ISLAND SCIENTIFIC STATION

The College maintains, except during the war, a scientific station for special laboratory and field investigations on Kent Island, at the entrance to the Bay of Fundy. This island, which is nearly two miles long and contains approximately one thousand acres, was presented to the College in 1935 by John Sterling Rockefeller.

Adequately equipped as a base for practical field training in Ornithology, Marine Zoölogy, Botany, Geology, and Meteorology, the station includes laboratory facilities, and a meteorological observatory. A forty-two foot cruiser is available for scientific research. A two-story dormitory provides comfortable living quarters for the members of the annual summer expedition.

The station is under the supervision of the Department of Biology.

## THE ART COLLECTIONS

The art collections of the College—except the portraits and busts in Memorial Hall, the portraits of the presidents of the College in Hubbard Hall, and the mural paintings in the Chapel—are exhibited in the Walker Art Building—the Bowdoin Museum of Fine Arts.

This building was designed by Messrs. McKim, Mead, and White, and given by the Misses Mary Sophia and Harriet Sarah Walker, of Waltham, Massachusetts, as a memorial of their uncle, Theophilus Wheeler Walker.

The façade of the building, approached by a wide flight of steps, running between pedestals on which stand limestone copies of the lions of the Florentine Loggia dei Lanzi, shows a central bay in limestone—an arch resting on six Ionic columns—flanked by brick wings, centering each a rectangular niche. In the northerly niche stands a bronze copy of the Vatican Demosthenes, in the southerly, one of the Lateran Sophocles, both copies being by De Angelis, of Naples. Directly across a loggia within the central bay is the main entrance.

This entrance opens into Sculpture Hall—the rotunda, covered by and lighted from a skylight in the dome rising forty-seven feet above the floor. The tympana under the dome are filled by murals, each

twenty-six feet in width, symbolizing Athens, Venice, Rome, and Florence, respectively by Messrs. John La Farge, Kenyon Cox, Elihu Vedder, and Abbott Thayer. In Sculpture Hall are exhibited, besides the Assyrian slabs secured for the College by Henri Byron Haskell, of the Medical Class of 1855, marbles which constitute a part of the Edward Perry Warren classical collection.

North of Sculpture Hall lies the Bowdoin Gallery, containing, chiefly, the original collection of paintings bequeathed the College by the Honorable James Bowdoin, 3rd; the Cony collection of silver given by Mrs. Albert E. Davies; and the Kling collection of silver. South of it lies the Boyd Gallery, which houses, principally, the remainder of the Warren collection, and, in whole or in part, the Dana Estes collection of Cypriote antiquities, the Wade porcelain, the Bowdoin and the Johnson collections of drawings, and several other collections. The Boyd Gallery is also utilized for the showing of temporary exhibitions.

In the Sophia Wheeler Walker Gallery, west of Sculpture Hall, directly opposite the main entrance, is placed the bronze bas-relief portrait of the Honorable Theophilus Wheeler Walker, by Daniel Chester French; and here are kept, exclusively, the family portraits, the paintings, drawings, miniatures, silver, Roman glass, and other objects of art left to the College by the Misses Walker.

In the basement, besides a lecture room, a class-room, and the director's and curator's offices, is a gallery devoted to temporary exhibitions. The corridors contain the James Phinney Baxter collection of watches and the cases displaying the William Tudor Gardiner collection of Chinese Ceramics.

The museum is open on week-days from 10.00 to 12.00 and 2.00 to 4.00, on Sundays from 2.00 to 4.00, and, generally, from 2.00 to 4.00 on holidays.

# THE LIBRARY

The Library contains about 193,000 bound volumes. It includes the private library of Hon. James Bowdoin, received after his death in 1811; and the extensive collections of the Peucinian and Athenæan Societies, added in 1880.

Special collections worthy of note are the Longfellow collection; the Carlyle collection, given by Isaac Watson Dyer, of the Class of 1878; the Huguenot collection; the Arctic collection; the Abbott collection; and the Maine collection.

The Library possesses valuable sets of periodicals collected during the past century, and about three hundred and sixty titles are currently received by subscription. The printed catalogue cards of the Library of Congress are received as issued, and this bibliographical collection of increasing value and serviceableness may be consulted by any investigator. Though no formal instruction in bibliography is given, the librarian and his assistants are always ready to lend personal aid to inquirers.

During term time, the Library is open week-days from 8.30 to 5.30, and from 6.45 to 10.30; Sundays from 2.00 to 4.55, and 6.45 to 10.30. In vacation it is open five hours daily, with the exception of Sundays and holidays.

Annual accessions, which average three thousand five hundred volumes, are made to the Library by means of an appropriation by the Boards for the purpose, and from a part of the proceeds of the following funds:
